

SYSTEM PROTECTION & RELAYING ENGINEER
FREDERICKSBURG, VA

Job Posting #: 39FB11152011
Job Classification: Exempt

EDUCATION:

Four (4) year Engineering Degree or equivalent with a Bachelor of Science in engineering required. Registration as a Professional Engineer in the state of Virginia preferred.

EXPERIENCE:

Eight (8) years of progressively responsible utility engineering experience including supervisory responsibility and project management. Experience should include substation and transmission protective relaying design, testing and coordination.

JOB KNOWLEDGE:

Must have a general knowledge of the operations of a rural electric transmission and distribution cooperative. Must be familiar with all aspects of design, scheduling, installing and coordination of facilities needed to meet the demands of the electrical system. Basic computer skills required.

ABILITIES AND SKILLS:

Must be able to provide leadership and supervision to departmental staff. Must have the ability to communicate with membership, general public and other employees. Must be able to make design recommendations concerning the addition and upgrading of facilities to the cooperative's electric plant. Must be able to represent the Cooperative's interest in negotiations with equipment suppliers and interconnecting utilities. Must be able to supply technical advice on all related design matters to the Director of Substation and Transmission Engineering. Ability to analyze and solve technical problems.

WORKING CONDITIONS:

Time will be split between the headquarters office and field work for inspection of facilities or meetings with members, power and equipment suppliers and consultants. Attendance of seminars and conferences several times a year may be required.

Subject to call at any time for emergencies.

CONTACT: VIRGINIA EMPLOYMENT COMMISSION. POSITION OPEN UNTIL FILLED.
