

Dear Member:

Welcome to *your* electric cooperative. Since the 1930's, not-for-profit electric cooperatives such as REC have a proud history of providing reliable electric service to their members. Throughout our 70 years of service, our sincere commitment to providing reliable electricity and the highest quality service, at cost, has remained constant. We continue to make every decision based upon the same four core values that have guided us from the beginning: service, integrity, respect, and caring.

As you transition from a customer of Allegheny Power to a *member* of Rappahannock Electric Cooperative, we want you to have the information you need. The enclosed card provides the essential contact numbers and addresses for your reference. **We look forward to serving you on June 1, 2010 as a new member of Rappahannock Electric Cooperative.**

Sincerely,

Kent D. Farmer
President & CEO
