

INTERNSHIP OPPORTUNITY

RAPPAHANNOCK ELECTRIC COOPERATIVE

DATA ANALYST

FREDERICKSBURG

Job Posting #: 01FB06172019

Pay: Non-paid

Job Classification: Intern

INTERNSHIP DESCRIPTION:

REC is seeking a motivated data analyst intern who is ready to apply knowledge of analytical terms and principles to an authentic real-world experience. The intern may assist with a wide range of duties, including conducting market research, analyzing data, creating presentations and building dashboards within an analytics center of excellence. This is an exciting opportunity for any student pursuing a career in analytics.

JOB KNOWLEDGE:

Must be comfortable working with spreadsheets and relational databases. Knowledge of research techniques, scientific sampling, use of PCs and business software is required. A basic understanding of marketing research and application required. Must have a working knowledge of generally accepted business practices. Demonstrated ability to utilize visualization software (e.g. Microsoft Power BI, Tableau) is preferred. Knowledge of at least one scripting language (e.g. Python) and/or one statistical software package (e.g. R) is a plus.

REQUIREMENTS:

- Data Analytics, Computer Science, Business or related course of study
- Proficient in Microsoft Office

WORKING CONDITIONS:

Most of the work will be performed at the Fredericksburg office. Will require periodic travel throughout REC's territory.

HOW TO APPLY:

Fax or email resume and two reference letters to 540-891-5990 or rechr@myrec.coop by DECEMBER 31, 2019. INCLUDE JOB POSTING #01FB06172019 IN SUBJECT LINE
